

\$13 Million in New Contracts Awarded to WPCS

EXTON, PA - (PR Newswire - First Call) - June 3, 2008) WPCS International Incorporated (NASDAQ: WPCS), a leader in design-build engineering services for specialty communication systems and wireless infrastructure, has announced that, through its subsidiaries, it has been awarded approximately \$13 million in new contracts for projects in a variety of sectors including public safety, healthcare, gaming and energy. The projects include work for existing customers as well as new customers.

Some of the contracts are projects to be completed for Caltrans, CalPERS, Saint Joseph's University, Honeywell, Siemens Building Technologies, Dominion Resources, Global Energy Concepts, Mohawk Valley Water Authority, Abbott Bioresearch Center, Princeton HealthCare, Sutter Medical Foundation, Harrah's Resort Atlantic City and Purolator Courier. In addition, WPCS obtained a number of international contracts including projects for PetroChina, Daifeng Pipeline and Taishan Gas in China and Silver Shop Sunshine Plaza, Brumby Tamworth and Cold Rock Mornington in Australia.

Charles Madenford, Executive Vice President of WPCS, commented, "Although the wireless infrastructure segment has been less active, we continue to see a demand for our design-build engineering services in the specialty communication systems sector, which remains our primary market focus. Bidding opportunities in public safety, healthcare, gaming and energy continue at a solid pace. These markets appear to be less impacted by a softer general economy. We continue to add new customers each quarter and our level of repeat business is encouraging. We believe that this is a testimony to our high level of customer satisfaction."

About WPCS International Incorporated:

WPCS is a design-build engineering company that focuses on the implementation requirements of wireless technology. The company serves the specialty communication systems and wireless infrastructure sectors and provides services that include site design, technology integration, electrical contracting, construction and project management for corporations, government entities and educational institutions worldwide.
